Ready to Race package powered by the Ford Duratec engine at 210hp coupled to a 5 speed gearbox.

- Full integral cage MSA or FIA
- ATR throttle bodies
- ATR engine parts
- Lighted flywheel
- AIMs digital dash
- Life Racing F88 motorsport ECU (with logging)
- 42mm 4-2-1 stainless manifold
- Bias brakes

ATR Zero Race Rolling Package - £22,821

This gives you the optimum foundation for your race car allowing you to then specify your engine and transmission of your choice of engine and state of tune you require. Included are all the ATR options within this package as standard giving you the optimal performance from your Zero chassis, these include:

- Plated limited slip diff.
- ATR 4 pot callipers with 300mm floating discs
- ATR billet front and rear hubs
- Full adjustable rose jointed lightweight wishbones.
- Bias pedal box
- Rear diffuser
- Composite race seat with TRS race harness
- AIMs digital dash.
- Team dynamics wheels and Yokohama tyres with wider rears
- Full integral roll cage to either MSA or full FIA regulation

Mazda Race Package - From £17,000

Designed to give you everything you need to get you on the track when you combine it with a Mazda MX5 (MK1 ,2 ,2.5 year 1989-2005) donor car. This can be purchased in modules as you build or as a complete package. It includes all the components required to get you out on track in one simple to complete package this helps with planning, building, and budgeting.

Zero Race Starter - From £5,500

This is the start point for your car with the chassis, panels, and wishbones for you to start a race build allowing you to then tailor the configuration to your needs thereafter.

There are a range of options and specifications available to discuss with the GBS team to give you the maximum performance on track and get you on the podium, within your chosen championship.

Fully built on the track ready to race from £38,574 inc VAT
